

Vesmach

YOUR BAKERY SOLUTIONS PROVIDER

Product Name:

Standard Combined Weighing & Packaging

Features:

- High-precision and high resolution loadcell;
- 1.6L hoppers can be widely used for a variety of common standard materials and standard weights.
- Combined multihead weigher and vertical packaging machine, fully automatic weighing, filling, date printing, packaging and outputting.
- Automatic fault alarm System ensures safe and reliable operation.

Kenwei -Standard Combined Weighing and Packaging Machine | Automatic

- Integrated control panel, man-machine interface touch screen, easy operation and maintenance.
- Equipped with servo motor & film pulling System and optical tracking devices to ensure accurate bag length and color positioning. Horizontal sealing by servo motor with high speed and high efficiency.
- Cheap, economical, cost-effective and with low maintenance costs.
- Low height, small sizes for a variety of standard workshop and small places.

Specifications

MOQ	1 set
Payment	L/C, T/T
Place of Origin	China
Brand	Kenwei
Model	JW-MC461016
Identify Code	JW-MC461016-1
Weighing Range	10-1000g
Accuracy	X(0.5)
Max Speed	70P/M 1600ml
Hopper Volume Heads No.	10
Film Width	160-460mm
Bag Size	60-300(L)*70-220(W)
Packing Speed	60bags/min
Film pulling driven by	Servo Motor
Max. Belt Speed	55m/min
Belt Width	150mm
Belt Size	350(L)*160(W)mm
