Product Name:

Ultrasonic Cross Cutter and Slitting Machine

MODEL: WANLISP6688

Features:

- Ultrasonic cutting achieves no friction, no pressure cutting mode.
- It can cut sticky food such as cream jam smoothly and beautiful without sticking knife
- Automatic product positioning, Omni-directional cutting according to customer's needs
- The cutting product can be automatically positioned and slitting according to the pre-entered parameters
- Automatic belt convey and cutting products of 600x600mm
- it can be equipped with automatic paper removal function (optional)
- controlled by 5-axis servo motor system, can be linked to chain slat type tunnel oven

Specifications

Dimensions	L3600 x W1400 x H1550mm
Voltage	220V, 1PH, 60 Hz
Number of blades	4 pcs
Blade size	300mm
Blade materials	Titanium Alloy
Machine materials	Stainless Steel
Cutting Slice Shapes	Slices
Cutting height	Up to 80mm
Cutter Speed	35-60 times/minute (adjustable)
