

Vesmach

YOUR BAKERY SOLUTIONS PROVIDER

Product Name:

HORIZONTAL FLOW WRAP PACKING MACHINE

MODEL: SZ-400W

Features:

- This machine is equipped with three servo system. With highest packing speed.
- The machine structure well designed, easy for maintain, low noisy, no need do to much adjusting, open machine directly using.
- The machine can choose to equipment with automatic feeding conveyor, good expansibility.
- All-purpose bag former, can adjust freely. Easy operation and fast.
- The machine design conforms to National GMP standard.

Purpose:

Suitable for baked goods (mooncakes, bread, biscuits, etc.), medical devices, candy, pharmaceuticals, daily necessities, Packaging of various solid, regular objects such as hardware parts, cardboard boxes, or pallets.

Specifications

Packaging speed	30-120 (packs/minute)
Packaging film width	90-400 mm
Packaging specifications	
Bag	L - 80-350 mm W - 235-160 mm H - 5-70 mm
Product range	35-160 mm
Total power	5.2 kW (Double temperature control)
Main power supply	3.1 kW
Heating power	2.1 kW (Double temperature control)
Machine weight	550 kg
Machine size	1930 × 880 × 1380 (machine head) 4200 × 880 × 1380 (feeding conveyor)
Power type	220V
Packaging film materials	OPP/CPP, PT/PE, KOP/CPP, VMBOPP, VMCPP, VMPET, etc.
