MODEL: LS05

Dimension	175x285x26.5mm
Depth Hole Size	Ø25
Capacities	67

FEATURES

- Can withstand -40°C to $+280^{\circ}\text{C}$
- It lets you quickly create pralines with all the different types of filling, from the softer ones such as creamy chocolate and pralined fillings, to the harder ganaches.
- If you choose to make only spherical pralines such as truffles, you can avoid using the chocolate-coating trolley. It's enough to dip them manually in softened chocolate.
- Even for making spherical jellies, this is the speedy and sensible way to go.

Silicon Mat

FEATURES

- Perfect to be used either for baking or freezing processes of products realized by patisseries, ice-cream parlours, restaurant and confectionery industries.
- Every mat is made of glass fiber and coated on both sides with silicon for foodstuffs.
- Can be used to make pastry products that are ready to be cooked on trays and for other several applications; in fact it is the ideal tool on which to work sugar, chocolate, caramel, to create decorations for cakes and for rolling out any kind of dough without using flour.
- Resists to temperatures from -40°C to $+280^{\circ}\text{C}$ and it's suitable to be used in static, ventilated, automatic or microwave ovens.
- Must be placed on a grill or a perforated tray.
- Can be simply cleaned up using a soft sponge under hot running water.
